## SPAIN'S ANSWER IN

Refuses to Accept Our Philippine Terms.

CAPTURE OF MANILA HELD ILLEGAL

Took Place After Signing of Protocol and Cannot Stand-Spaniards Say United States Has No Ultimate Rights In Philippines.

PARIS, Nov. 5.—The Spanish commissioners, in the course of a two hours session of the peace conference yesterday, flatly refused to accept Monday's proposition by the Americans to take the entire Philippine group and to reimburse Spain for her "pacific expenditures" there.

This negative decision was expected. The Spanish commissioners had also a number of positive declarations, which filled some 37 sheets of a typewritten presentment. In this statement the Spaniards held that the United States had no ultimate rights in the Philippine archipelago and could have none save by the consent of Spain in these negotiations and upon terms satisfactory to her. According to the Spanish contention in the formal statement, the United States entertained no thought of annexing the Philippines when the protocol was signed, or it would have been expressed in the protocol as clearly as the conditions regarding the cession of territory in the Antilles and the M. Cambon, before the signa ture of the protocol, received from Madrid, the presentment alleged, a cable message clearly setting forth that the maintenance of Spain's authority over the Philippines should not be affected by the protocol, to which reservation the United States made at that time no

protest or objections.

This dispatch to M. Cambon, as the Spaniards claimed yesterday, embodied also the view that the United States had no valid basis for claims in the archipelago.

It was further held yesterday by Senor Rios and his colleagues that the capitulation of Manila, having occurred after the signing of the protocol, and thus after the suspension of hostilities, was invalid.

With all this for a groundwork the Spaniards made their first positive move against the Americans, and it constituted their counter proposition. They charged upon the United States a wrongful appropriation of public moneys belonging to Spain by seizing the tariff duties at Manila, and they formally demanded the return of these moneys, in the sum of nearly \$1,000 000. On the same premises the United States was yesterday declared to have made and held as prisoners the Span ish troops at Manila in violation of international law because done after the suspension of hostilities under the protocol. A further charge was that by the imprisonment of the Spanish troops at Manila the United States had prevented Spain from quelling the insurrection and had thus contributed to the violence against Spain after the ce-sation of hostilities.

The Spanish presentment also cited the refusal of the Americans to consider the Cuban debt on the ground that it was not mentioned in the protocol and demanded an adherence to this as a precedent in the discussion of the Philippines, regarding a cession of which the Spanish commissioners held the protocol to make no mention.

In support of these assertions, arguments and demands the Spanish presentment invokes Spain's record in the correspondence by mail and telegraph. though it is not known unofficially whether the Spaniards produced the message said to have been sent from Madrid to M. Cambon at the time the protocol was signed, in which, it was affirmed yesterday Spain reserved her Philippine sovereignty.

The presentment was read by Interpreter Ferguson, being rendered from the Spanish, in which it was aritten. into English. At the close of the rending the Americans said that we had to have the Shoush statement and e.d. into written English for piere e reculconsideration and an क्दोournment एक्ट taken to Tuesday next.

The Spaniards affect to believe that the Americans had blanned to devotop the spirit of their Philippine Jomneds before the American elections, but thew

decline to say whether they expect easier terms after the elections.

The entire clerical force of the American commission was busy the greater part of last night in handling the Spanish presentment, ar the counsel to commissioners will at the same time examine it with a view to today's private session of the American commission, when a response will be formu-

It may again be asserted on the highest authority, as bearing on the Spanish argument, that when the protocol was signed there was no understanding, verbal or otherwise, which the protocol does not show forth. Nor have the American commissioners at any time, on the other hand, held or believed that the protocol, per se, determined anything against Spain's sovereignty in the Philippines. The American representatives have, however, held and doubtless will hold that the protocol was meant to provide and does provide for a decision by the Paris conference regarding the ownership of the Philippines.

In this connection, too, the Americans will undoubtedly cite the fact that originally the protocol contained the word "possession" instead of "disposition," the latter having been substituted at M. Cambon's request and in deference to Spanish sensibilities. The original reading will unquestionably be recurred to now as indicating the mental attitude of the American signer of the profocol toward American possession of he Philippines. This line of reasoning naturally will include the question of the precedent which the Spaniards say, assigned to command it. was created by the refusal of the United States to consider the Cuban debt protocol.

It is possible that the American commissioners will finally concur with the Spanish contention that the capitulation of Manila, coming after the signing of the protocol, was invalid. In that event the Americans may cite, as an offset to the tariff duties collected, their own expenditure in administering the government of Manila and enforcing order. They may also ask if Spain wishes the insurgent cordon of the city and the insurgent control of the water works re-established as a step toward the restoration of the status quo anta which the Spaniards declare was broken by the Americans.

Finally, Spain may be asked to consider whether, instead of being prisoners of the United States, the Spanish troops at Manila were not more exactly refugees within American protection.

But, however the contentions may run, there are at present no indications of a rupture.

"Seventh Army Crops—Readquarters at Havana, First and Second divisions at Havana, Second and Sixth United States cavalry at Havana. The Second regiment of United States artillery will be assigned to the Seventh corps prior to departure from the United States The batteries will retain their present stations until notified to prepare for embarkation for Havana. Four light batteries to be hereafter designated will be assigned as follows: Two to the garrison of Havana and two to Matanzas. The Second, Sixth and Tenth United States cavalry will remain with the Fourth army corps until detached for embarkation.

"Corps commanders are charged with the preparation of their commands for these movements. The quartermaster general will make timely arrangements for the transportation, not only of the commands, but the necessary impedimenta. Hospitals will as far as possible be provided in advance of the arrival of troops. Subsistence to meet the needs of the above service will be fully provided.'

No provision is made regarding the Fourth corps, now at Huntsville under command of General Wheeler, although in time it may be sent to Cuba. The First corps is under command of Major General James H. Wilson, and the Seventh under General Fitz-Hugh Lee. The Second corps is under the temporary command of General Young, but there is a possibility that when it reaches Havana General Wade, now on the Cuban military commission, will be

Evacuation of Puerto Principe. WASHINGTON. Nov. 5. - Advices from the Cuban military commission are to the effect that the Spanish evacuation of Puerto Principe will take place earlier than the 22d and that it will be desirable to send the troops designated in the order issued yesterday as early as the 15th. The transport Chester, which will carry a regiment, probably will sail from Savannah on the 8th with the Fifteenth infantry, which is to go to the town of Puerto Principe. The Eighth cavalry and Third Georgia will follow soon aft-

Distributing Ballots at San Juan. SAN JUAN, Porto Rico, Nov. 5.-The recent ruling at Washington refusing to lucal newspapers the right to pass in the mai's as second class matter renders the tariff on the delivery of papers in the island so heavy that the subscription lists have been practically suspended. It now costs more than the price of a paper to mail it, and there

are loud complaints.

The voting ballots for the Forty-sev enth New York volunteers have arrived and are being distributed to the compan'es, which are widely scattered. Probably several companies will fail to reorder was issued last night designating | ceive their ballots before Nov. 8, when the vote is to be taken, but the vote of about eight companies will be secured, The ballots, having been collected, will be delivered to the district commander, who will forward them to New York.

Smallpox In Santiago Province.

SANTIAGO, Cuba, Nov. 5,-Dr. Woodson, medical inspector of the military department of Santiago, who arrived Thursday on the United States cruiser Cincinnati, after visiting Holguin, Gibara, Baracoa, Sagua de Tanamo and Guantanamo, reports that on his arrival at Gibara with Colonel Hood's regiment he discovered more than half the population suffering from plague and smallpox. There were also many cases of typhus and dysentery. He went immediately to work and systematically isolated the houses, insisting on the regiment (the Second immunes) being encamped in a healthful locality near the sea. Every effort will be made to prevent the American and Spanish soldiers from frat emizing, as the Spanlards come from Helguin, about 37 miles from Gibara, and are liable to carry infection. The whole country between the two towns is thickly populated and plague is scattered all along the route.

NORTH CAROLINA POLITICS.

Sympathisons Burn Election Registrar's Herse.

NEWBERN, N. C., Nov. L-A mol of negroes at Vanceville, a village M miles north of here, attempted Thurs day night to burn the home of W. Smith, an election registrar. Mr. Smith had refused to allow negro boys unde legal age to register, and this incense some of the political leaders of county to the point of applying torch.

Eight persons were sleeping in the house, when at midnight the fire was started. The smoke awoke the inmates all of whom had narrow escapes, Smith's wife and daughter being overcome be the smoke. They would have been burned to death but for the slarm and the speedy arrival of a number of white neighbors, who extinguished the flames

The negroes, who numbered a doses or more, it is alleged, escaped, but the matter will be investigated if the Deme ocrats succeed in capturing the county offices at the election Tuesday. As it is now, negro criminals are seldom arrest ed and never incarcerated.

Dancy, the colored collector of the port of Wilmington, spoke in the open air here Thursday night to a large crowd of negroes. The mayor of Newbern, who was elected by the aldermen appointed by Governor Russell, used the city wagons to convey chairs to the scene. Dancy was at the Rochestes meeting where intermarriage of the races was advocated, and in his paper, published in Wilmington, told negroes that they were entitled to marry white women, "if the women were good enough."

On a principal street of Newbern Thursday the daughter of a prominent merchant was pulled from her bicycle by a colored woman, who told her she would teach her something."

It is difficult to identify the negross who commit these acts, as they are protected by the members of their race and they thus escape punishment.

FIVE OF THOSE ON BOARD DROWNED

Two Passengers and Three of Crow Survivors Brought to Vineyard Haven-The Captain's Story of the Diseater.

VINEYARD HAVEN, Mass., Nov. 5.-A disaster at sea, fortunately with a small loss of life, five persons in all, was made known yesterday by the minding here of 22 persons who escaped from the burning steamer Croatan of the Clyde line, bound from New York for Wilmington, N. C., and Georgetown, & C. The disaster occurred on Nov. 1 about 18 miles north of Cape Charles and about 206 miles from New York, from which port the steamer sailed on Det. 31 with a general cargo and eight

At 8 o'clock in the afternoon the burnod hulk of the big freighter sank bementh the waves, but of the 27 persons who were on board her 23 have survived a very tragic experience. They were maded at this port yesterday afternoon by the schooner Alice E. Clark of Porthand, Me., which was in the vicinity of the Croatan at the time she was burnang. The list of drowned is as follows: Second Assistant Engineer Jeremiah McCarthy of Nova Scotia; leaves a widow in New York.

Steward James Curtis of Jersey City. Mrs. James Curtis, wife of the stew-

~, an oiler. Jennie Willard (colored), Wilmington,

The story of the disaster is graphically told by Captain Hale and other officers of the unfortunate vessel as fol-

"The Croatan was but 20 hours from New York on her way to Wilmington and going at a good rate of speed, with a smooth sea and calm weather, when at 3 p. m. a fireman came hurriedly on deck and reported that the ship was on **2rc.** A general alarm was immediately given and an effort made to lower the beats, but the fire spread with such rapidity that all efforts to reach them were unavailing because of the flames. Im fact, in less than ten minutes after the fire was reported the ship was completely enveloped in flames from stem to stern. Shortly after the fire was discovered an explosion took place in the eargo, which blew off the after hatches. A second explosion followed a few minuses later, and the ship was then a

mass of flames. It was at this time that Captain Hale, seeing that to remain on the vessel meant sure death, gave orders for all hands to jump overboard and save themselves as best they could. The gallant captain was the last man to have the ship, remaining on deck with his first officer until they were completely enveloped in flames and the ressel had commenced to sink.

There seemed to be no panic on board, and men and women, after lashing on their life preservers, calmly leaped overboard. Some of the passengers had their faces scorched and many had their elothing on fire when they leaped into The sea. The captain and first officer succeeded in securing a yawl boat, which had been damaged in lowering. and by hard work rescued eight persons from the water.

The burning ship was sighted by the four masted schooner Alice Clark of Portland, Captain Clark, Norfolk for Portland, which lay\_becalmed six miles off, and her captain sent a boat crew to aid in the work of rescue. They suceeeded in saving 12 persons from a watery grave, many of whom had been an hour or more in the water and had become nearly exhausted. They were taken on board the Clark and given every possible attention.

Captain Hale, his officers, crew and passengers all speak in the highest praise of the treatment they received at the hands of Captain Clark, his wife and crew on board the Clark.

Captain Clark not only gave the shipwrecked men and women food and elothing, but supplied them with money to take them to their homes. The resqued persons are being cared for here at the Seamen's bethel and at the homes of citizens and will proceed to New York today.

No explosives were known to be among the ship's cargo, and the origin of the fire is a mystery to her officers

There is one young man in this city who has the courage of his own or anybody else's convictions. He was told by his tailor that trousers would be worn tight this fall and he pirced his order accordingly. Nowadays he attracts more attention and smiles than the man who ides behind the goat in theoreus parade. People turn and look at him as he passes, and instead of saying: "There, that young man's up-to-date," they say: 'How in the world does he pass his feet through those pipes?"

The appointment of W. B. Royce as receiver of the Traction Company awakens several ex- and present trolley employes from the dream which they have been enjoying for some time past.

Political arguments at the round tables, nowadays, go something like

Never-voted-anything-else-but-the-Republican-ticket—(To his Democratic friend)-"say, old man"-(only Democrats are called "old man" since the avengers were organized)-"on the dead level-What do you think your party will do at this coming election in this city? Your honest judgment?"

Democrat-"We expect to carry three wards and all of the head of the ticket, and reduce Roosevelt's vote to a minimum-and-"

The other-"Don't talk like a fool. I wanted your honest opinion. Why you can't carry-'

The Democrat-"You wanted my honest opinion, and you get hot when—" The other-No, I'm not getting hot either, but you know, or you outly to know, that your party's got no more show than the Prohibitionists. You know less about politics every day. It's a waste of time for a man to talk politics with you. Say, I'll bet you \$10 you don't carry-"

The proprietor—"Gentlemen, won't you have something on the house."

The above is not exaggerated. It can be heard in any of forty more or less-"reading rooms" in this city a dozen times a day. Here is another conversation heard regularly:

Republican-"Now I've always been your friend and I think you could do me the personal favor to vote for-, without hurting your conscience. He's a blame good fellow and he'd do a friend a favor any time."

Democrat-"I'll tell you what I'll do. I'll vote for—if you'll vote for Blank?" Republicar-No, I can't do that. I-" Democrat-"Well, for the love of rum!

How do you suppose I'm going to vote

for your friend? Proprietor-"Have a little something on the house."

Legene Sold for \$4,000 and shall Go

From the Ellenville Press.

J. A. Sheeley, Thursday morning, sold his horse Legene to B. Tappan, of Vienna, Austria, for \$4,000. The horse will be left here till November 13th, when he will be taken to New York and shipped on the North German line steamer H. H. Meir. ERIE LOCAL TICKETS LIMITED.

A New System of Reeping Check on Passengers Introduced.

With the adoption of new stamps in the ticket office of the Erie, a system of limited tickets goes into vogue. The new tickets have been in use for some time, but the limited clause has not been enforced. The new stamps perforate the ticket with the date of issue. This makes it very easy for the conductors to find out when the ticket was issued. The new tickets bear a small white coupon. This coupon is limited to the day of sale or the next thereafter, if presented with the pink half of the ticket. The white end is used on the passage from the station at which it is purchased. The pink end of the ticket is limited to thirty days from the date of sale. The conductor looks at the perforation and thus learns whether the ticket is void. Before this tickets were good for any length of time.

## Have You Catarrh? the door to consumption and death, No other disease is more certain to One of its chief dangers lies in the fact that its existence is often unsuspected until it becomes chronic—that lingering cold that you are waiting to wear itself out is fastening catarrh upon you—one of the most loathafflicts humanity. Gatarrhal Powder will cure you. Whether the disease is in its first stages or deeply seated, the result is equally certain. It gives relief in from 10 to 60 minutes-it credibly short time. Hay fever, cold in the head, headache, loss of smell and deafness all yield promptly to its wonderful curative properties. Hon. Geo. Sayler, a distinguished ditizen of Scranton, Pa, writes: "I have been a martyr to Gatarth for the past twenty years, and have tried every known remedy, but got very little, if any, relief from them. I was troubled with a nasty coughing, especially in the morning, also a constant dropping in the throat, and the pain in my head was terrible, and my breath was very offensive. Last spring I was induced to give Dr. Agnew's Catarrhal Powder a trial I did so, and can truly say that its effect was mayical; the first application cleared my head instantly. A little perseverance in its use has entirely cured me." At all druggists. Dr Agnew's Cure for the Heart relieveheart disease in 30 minuses. Dr. Agnew's Liver Pills—roc. for 40 doses—are the best. # TOMPKINS

Big Store, No. 35 North Street. QUESTION OF IDEAS

No one man invented the modern retail store or conceived the controlling idea of it. It is an evolution; but it gives commerce a field of grandeur hitherto unknown. Its mission has interests far beyond mere gains to the proprietors. The net profits of Tompkins' great store are a mere commission on sales. Aggregation is economy, savings are a profit. Thus prices come down, distribution is increased, and more managers and salespeople are employed. Increased employment is socially constructive. The busin as of Tompkins' store grows rapidly-it runs on ideas.

An Important Dress Item

It's the item of Underwear, and more import and a matter there cannot be. This branch of our business receives extra attention and very flattering patronage. It is not an e sy branch of retailing in which to attain prominence. There are few things in all the dry goods lists that are more staple. To offer better and better goods at lower and lower prices is to distarb foundations deeply set. Yet we have done and are doing it. The markets are watched vigorously and eternally by our buyers. Our purchises are immed e and come direct from the manufacturers,—consequently the best goods, cheapest. ers,—consequently the best goods, cheapest. Here are some prices that carry their own teach-

Use of Paine's Celery Compounc in the Philadelphia W. C. A.

The magnificent building at the corner | down in health by overwork, or what is of Eighteenth and Arch streets, Philadelphia, is a monument that tells what a great charity is the Women's Christian Association of the Quaker City.

The superintendent of the W. C. A. home is the accomplished woman whose portrait is printed here, Miss Katherine Kennedy. What she has done and what she is doing for the benefit of other women commands the highest respect and admiration.

more attention is given every year to from clergymen and teachers. An ailing, difficult to be hopeful and cheerful and good than a well one.

Writing to the Wells & Richardson Company, who are the proprietors of the most wonderful of all remedies for the cure of diseases that arise from the impairment of the nervous system, Paine's celery compound, Miss Kennedy, in the course of her letter referring to the use of Paine's celery compound among the members of the W. C. A., says that those who have been taking it feel greatly benefited, and desire to continue the use of it" So many women run

worse, overworry, have been restored to perfect health by Paine's celery compound, that its record in the Philadelphia home has been duplicated in every large city in the Union. Grateful testimonials of this character have been published time and again in these columns, and it is a fact that no other remedy has ever received a hundredth of the hearty blessings that the managers of public institutions have openly In all other institutions of this kind accorded to Paine's celery compound.

The widespread use of Pame's celery teaching the laws of health and right compound, in the most intelligent, careful more frequently a subject of attention grown up by just this sort of personal guarantee, by word of mouth, from nervous man or woman finds it more persons made strong and well to others needing exactly the kind of invigoration and toning sup that Paine's celery compound gives.

In time of great mental strain, when other remedies only meddle and muddle, Paine's celery compound feeds the hardpressed nerves.

Paine's celery compound purifies the blood of all bad humors, and cures the many ailments from this familiar cause. A vast proportion of all diseases are preventable. Paine's celery compound is universally prescribed by medical men to stop the progress of di-orders, due to poor blood and badly nourished nerves

"FACTS FOR RAILROAD MEN."

How the Law Was Violated in the Appointment of trank M. Saker as Rallroad Commission r.

Editor Argus:—A pamphlet, entitled "Facts for Railroad Men," is being circulated throughout the State by the Chairman of the Board of Railroad Commissioners, Ashley W. Cole. In this pamphlet an attempt is made by Commissioner Cole to deceive railroad men. In simply quoting to them section 150 of the railroad law, to prove that the Republican party has not violated the statute in the appointment of Frank M. Baker. He also states in his pamphlet that section placed there for the purpose of "jollying the railroad men for their votes.

I desire to reinte this statement of Commissioner Cole, by calling the attention of railroad men throughout the State to why that plank appears in the platform. Section 154 of the railroad law of the State of New York contains the following: "No person shall be appointed to or hold the office of commissioner, or be appointed by the Board to. or hold any office, place, or position under it, who holds any official relation to any railroad corporation, or owns stock or bonds therein, or who is in any pecuniarily interested in any firm or cor poration having business relations with any such corporation." It is upon this section of the law that the railroad organizations of the State charge the Republican party of the State with having violated the statute, and Commissioner Cole (unintenticually, of course,) clearly contesses this fact, when he states in giving Frank M Buker's record as a railroad man in his pampe, let Saying-"Mr Baker, when appointed, was General Superintendent and Director of the Addison and Pennsylvania Railwa ." This, we hold, is official relation to a railrand corporation, and violates the law.

Commissioner Cole m withholding this prevent, at this time, the successful contradiction of the many false statements which it contains.

#### THE ELECTION RETURNS.

The Daily Argus has arranged for early and complete election returns from the city, county, congressional district and State. The returns, as received, will be displayed by a stereopticon on the side of John J. Bryant's Hotel El-

If a full Democratic vote is polled on election day a glorious Democratic victory will be won in the State, in Orange county, in this city and in most of the country towns.

A reduction of \$22,451 in the city taxes made by a Democratic administration, this year, is the record on which the Democratic party asks to be continued in control of the government.

The interest of the Republican leaders in this campaign centers in Bedell and Goodsell. The rest of the Republican ticket is being neglected for the sake of these favorites of the Republican machine. Republicans who are opposed to boss rule and one man power in Orange county politics understand the situation perfectly and will smite the machine by voting against its peta.

In 1897, under Republican rule, the eity tax levy was \$102,787, this year, ander Democratic rule, the city taxes were only \$80,336 The saving to the taxpayers of \$22,451 in a year by a Democratic administration is a record which so commends itself to many Republicans, who have the city's interests at heart, that, rising above party considerations, they will vote for the Democratic candidates for city and ward offices.

Every dollar wrung from the people in meedless taxation means less light, less warmth, less cheer, less comfort in many homes. A Democratic city government by cutting down the taxes from \$102,-797 in 1897 to \$80,336, this year, saved the people \$22,451. That means that the people of Middletown had \$22,451 more light, warmth, cheer and comfort under Democratic than under Republican rule, and it's a mighty good reason why Democrate and Republicans should vota for another year of Democratic rule and the blessings that follow in its train.

Will Quaid, who taced Spanish bullets in the battle of San Juan Hill, has made a gallant campaign in this Senatorial discrict and he has made it against heavy odds. He has made friends wherever he has gone. He has borne himself with modesty, making no boast of having followed the flag. He has impressed all as being a brainy young man, well inform. od on public questions, with the full eourage of his convictions and in every way capable of ably and creditably representing this district. Democrats will give him their united support and Republicans who vote for him will never regret having done so

Charles L Elwood will make one of the best Mayors that Middletown ever had. He will be a credit to the city at home and abroad He will give the city -an honest, efficient, progressive administration, yet, realizing that burdensome taxes strike at the very bas's of the city s prosperity, he will insist on the strictest economy in public expenditures, and will not consent to the adding of a needless dollar to the taxes levied on property owners. The Democratic Aldermen who hold over and the Democratic candidates for Ald rmen, if elected, will cheerfully cooperate with him in every effort that he will make to give the city good government at the smallest possible cost. That's the platform on which the Democratic party asks votes for its candidate tor Mayor and for its candidates for Aldermen in the different wards

Louis Bedell is now guining for the farmers' votes. A circular signed by J. E. Wells, supervisor of the town of Goshen, and four other Republicans, was mailed to many farmers in the district. Friday, which credits Mr. Bedell with detecting the "bob weal bill" in 1897, and intimates that Mr Schultz was responsible for its enactment in 1898, The facts, as Mr. Bedell well knows, are that in 1897 the bill was defeated because some of its ##2500008 were objectionable and was passed in 1898 because the features, to which members of the legislature objecteb, were eliminated and removed. If the bob ved law injuriously affe to the interests of Orange county farmers, responsibility for the measure does not rest on Mr. Schulte, a minority momber, but

and Assembly without whose votes the measure could not have been passed and on the Republican Governor, without whose signature it could not have become a law. Mr. Bedell and his friends will have to try again. The farmers of Orange county are not such gudgeons as they take them to be. Their votes are not to be captured by such transparent fiction for the man who passed a bill to load them down with \$200,000 of bonded debt to improve the roads for the benefit of his wealthy friends.

The general expenses of Orange county have increased enormously since the Board of Supervisors passed under Republican control. Responsibility to the people has been forgotten and all serts of needless expenses have been incurred. If the Board was more evenly divided politically it would be for the people's interest. The power that a big majority gives the Republicans makes them reckless and indifferent to public opinion. In no other way can some of the acts of recent years be explained. Citizens of Middletown have an opportunity, this fall, to do their share toward reforming abuses in county affairs by electing Democrats to represent them at Goshen. The Democratic candidates for Supervisors, Messrs Wallace, Giles, Galloway and Austin, are all good citizens and capable men, who will make first class Supervisors. Vote for them.

It is said that Boyd. Iseman and Wood ought to be returned to the Board of Supervisors because they have had experience. They have had experience, too much of it. Men, fresh from the people, who have not been identified with any of the extravagauces and lax methods that have prevailed in the management of county affairs in recent years, will more worthily represent this city than men who have had too much experience. Rotation in office is sometimes a mighty good thing, and now is a mighty good time for Middletown to rotate its supervisors. The Democratic candidates-Messers. Wallace, Giles, Galloway and Austin will make good and efficient Supervisors and, if elected, will do all in their power to bring Orange county's expenditures back to where they were a few years ago, before the Board passed completely under Republican control.

#### TEDDIE AND TIM-

Last Tuesday was composition day in the Rochester public schools. Jack, the son of a canal boat captain, handed in the following poem:

Feddie and 7 im, went out to swim. In the raging Eric Canal, Tim got rattled and tumbled in

And thus began to bawl " Throw me a line, O Teddie dear,

O throw out a line to me, As all the people can see "

But Teddie, he cast his eyes aloft. And with his back to viny Tim, Continued haraunging the gaping crowd With terible chatter and din,

For I am the man who walloped old Spain I did it alone," said he, ' For one of my men, with me to lead,

Is worth any other three. If any you men would do a kind act Just take this message to Tim-I am elect d I'll pull him out

IF he'll prove that he stumbled in "For I am engaged in a tiger hunt,

And shall be most of the fall, And therefore can't stop when after such gam To rescue a thing so small "

WILL MAKE A GOOD CONGRESSMAN From the Independent Republican

Present appearances indicate that, however big a man Mr. Tompkins. Republican caudidate for Congress, may be in Rockland county he isn't producing anything like so favorable an opinion in Orange as it was hoped he would Here in this county the people in general, regardless of party, have a pretty good opinion of Samuel D Roberson. This good opinion is bassed upon a knowledge of the man from his record both in public and private life. Whatever duties he has been called upon to perform have been discharged acceptably to those who trusted him. He is shrewd, resourceful, industrious and with a keen knowledge of men and affairs. No town ever had a better representative in the Board of Supervisors than has Crawford in the person of Mr. Roberson, and no Congressional district will ever have its affairs looked after with a keener regard for the people staterests than will this district in the event of his election.

#### ROOSEVELT'S ROT.

From the Springfield Republican "Is New York going to prove false to the administration, false to the flag, false to what it did last summer, false to what the navy and army won for the country?" Thus spake Col. Roosevelt, yesterday It is an appeal that is keyed upon a falsehood, and it can hardly prove a winner when the votes are counted. The war was not a Republican war, it was supported by all citizens, irrespective of party, and its achievements belong to the whole people. A man cen vote Republican, Democratic, Populist or Prohibitionist in the coming elections without proving himself "false

INFORMATION FOR VOTERS.

Election Law Hules for Voting Spilt Tickets Where There Are I've or More Candidates to Be Elected to the **学生期を 学師**さら

EDITOR AROUS:-Will you please call the attention of voters to Section 110, Subdivision 2, Rules No. 4 and 5 of the Election Law regarding the intent of electors in voting for candidates for coroners, members of the board of éducation and constables. If voting mark is placed in the circle of

the Republican ticket and also opposite the name of Thos. S. Gillson, the vote will be counted for Joseph C. Miller and Thos. S. Gillson. If voting mark is placed opposite Harding and Gillson the vote will be counted for both Harding and Gillson, respectively, even though they are on the same line. If voting mark is placed opposite the name of three coroners or constables all votes for that office will be counted as blank. If the voting mark is placed opposite Case and McBrair, then Case, McBrair and Finn will receive the count. If, the voting mark is placed opposite McBrair, Smiley and Martin, then McBrair, Smiley and Martin will receive the vote, although McBrair and Martin are on the same line. The same rule that applies to the office of coroner also applies to that or constable and Justice of the Supreme

All of the above results are conditioned on the voting mark being in the Bepublican circle, and the same rule can be applied to any other ticket on the ballot. If the voter places voting mark caposite the candidate for whom he wishes to vote in the offices above mentioned the votes will be counted for such candidates unless he places the voting mark opposite more names than there are offices to fill, in which case the vote for those offices will be counted as blank.

Light on Prometion of Capt. Sague in First New York Volunteers.

A Poughkeepsie dispatch says Governor Black commissioned, Thursday, John K. Sague, Captain of Company K, as Major of a battalion in the First New York Volunteer Regiment, now doing garrison duty in Honolulu,

Some time ago it became known that Major Chase intended to resign his commission, and it was assumed that Capt. Sague would be promoted to fill the vacancy, as he was the senior company commander in the battalion. There was great surprise when it was

learned that Col. Barber, of the First Regiment, who is, by the way, a relative of President McKinley, had overlooked Capt. Sague, and recommended to Gov. Black the appointment of Capt. Hitchcock, of Albany, to the vacant major-

This news made Capt. Sague's friends ath me indignant, and, as he was an active Republican worker before he enlisted, the services of Robeet H. Hunter, Deputy State Superintendent of Insurance, and the local Republican leader. were enlisted in his behalf. The result is that Capt. Sague's commission as Majer is now on its way to Honolulu.

#### Pell Twenty Feet But Escaped Injury.

While John Foley was painting the roof of Crane & Swayze's coal shed, this morning, his pail of paint upset and the paint running down the roof made it so slippery that Foley, not having claws, was unable to hold fast and slid off, falling to the ground, a distance of twenty feet. He was not injured but was throughly sprinkled by the paint which fell on him.

"I was taken with neuralgia in my head and eyes. Not long after this, a scrofula sore appeared on my left cheek, extending from my upper lip to my eye. Other sores came on my neck and on my right arm and one of my limbs. They were very troublesome and painful and soon became great running sores. My face looked so bad that some of my neighbors could not bear to look at me and advised me to wear a bandage, but I feared this would irritate the sore and make it worse. So I

similar to mine, which had been cured by Hood's Sarsaparilla, urged me to try it. Finally I was persuaded to do so, and in a short time I saw it was helping me. The sores began to heal and the neuralgia in my head was better. In a few months the sores on my arms and limbs all healed; those on my neck gradually disappeared and now they are all gone. I have never had any symptom of ecrofula since. One large scar on my right arm is all the sign that remains of my terrible affliction. The neuralgia is also cured." Mas. J. M. Salisbury Announces France Will Give Up Fashoda.

LORD MAYOR'S DINNE**R TO KITCHE**NER

Many Notable Guests and Notable Addresses-Comment on British Naval Activity-May Be Due to Philippine Situation.

LONDON, Nov. 5.—The banquet to General Kitchener at the Mansion House last evening was an exceptionally brilliant affair. A trophy of British and Egyptian flags entwined had been arranged above the lord mayor's seat. The guests, who wore full dress uniforms, with ribbons and decorations included the Duke of Cambridge, the Marquis of Salisbury and the other cabinet ministers, Lord Roberts of Kandahar, Lord Strathcona and Mount Royal, Sir William Vernon-Harcourt, Lord Rosebery, Lord Wolseley, the commander in chief of the British forces; Lord Russell of Killowen, the lord chief justice of England; Lord-Curzon of Kedleston, the newly appointed vicerov of India: Sir Joseph Lister, president of the Royal society; the Duke of Marlborough, Mr. Henry White, the United States charge d'affaires; Baron Rothschild, Judge Lambert Tree, formerly United States minister to Russia, and others of the highest rank in the British empire. In all there were about 350 guests present.

Speeches were made by Lord Rosebery, Admiral Sir Howell Salmon, Lord Lansdowne, Lord Salisbury and Lord

There was a feeling of expectancy throughout the speeches, and everything that could be construed as an illusion to war was jumped at by the assembly with prolonged cheers. When Sir Newell Salmon alluded to the "preparedness of the navy" and Lord Lansdowne to the "readiness of the army," there were prolonged outbursts of ap plause.

The assembly greeted the rising of the Marquis of Salisbury to toast the sirdar with nervous silence, as it had been whispered that he had an important and grave statement to make. His statement was important, but it was pacific, as he announced a settlement of the chief difficulty with France.

The premier said in part: "No one can wonder at the wast en-thusiasm by which the correer of this great solder has been received, exprcially when we consider the strange dramatic interest of the circumstances and conditions amid which laurels were won by the sirdar. Besides being a splendid soldier, he is also a solendid diplomatist. It must have required unusual talents successfully to carry out the delicate mission up the Nile which conducted him into the presence of Major Marchand.

"The sirdar has recently expressed the hope that the difficulties arising from the presence of Major Marchand may be within the power of diplomacy to adjust. I am glad to say that up to a certain point he has proved a true prophet.

This afternoon I received from the French embassador the information that the French government has come to the conclusion that the occupation of Fashoda is of no sort of value and that they thought in the circumstances that to persist in an occupation which would only cost money and do harm nerely because some bad advisers thought it might be disagreeable to an unwelcome neighbor would not show the wisdom with which, as I think, the French republic has been uniformly guided.

"They have done what I believe every government would have done in the same position, resolved that the occunation must cease. I must not be understood as saying that all causes of controversy are removed. That is not o. Doubtless there will be many discussions between us, but a somewhat acute and somewhat dangerous cause of differences has been removed."

General Kitchener's reply, which was modest and not important, gave unstinted praise to the British, Egyptian and Sudanese troops. The sirdar said he would indeed have been an incapable leader if he had failed of victory with such soldiers. He gave some détails as to the expenses of the expedition.dwelting with pride upon its cheapness, and in summing up the "assets that remain" eferred to 600 miles of railway, gunhoa's, a flotilla of sailing craft and

after a pause) the Sudan. A striking feature of the scene was the presence of a number of young officers of the guards. Life Guards and Tweny-first lancers, who had served with the sirdar. Several of them were wounded and walked with crutches or with their arms in slings.

Baratier Reaches Cairo.

CAIRO, Egypt, Nov. 5 .- Captain Bartion, bearing confidential instructions from the French government to Major Marchand, arrived here yesterday aftermoon in company with that officer, who went to meet him at Ismailla, on the Sucz canal.

It is said in French circles that Major Marchand, when he dispatched Captain Baratier from Fashoda, expected him to go to Khartum, telegraph his (Marchaud's) report to Paris and return immediately to Fashoda. On hearing no news for a week, Major Marchand deded to go to Cairo himself and acmaint the French government with the dituation.

Now, it is understood, he will return to Fashoda and conduct his expedition to Jibutil, on the guif of Aden.

Comment on English Naval Activity. LONDON, Nov. 5.-Despite the jubiction of the country over the favorable innouncement by Lord Sallsbury regerding Fashoda at the Kitchener hanmet, there is serious uneasiness as to the real object of the continued war reparations, which can hardly be justied even by Lord Salisbury's warnng that there are still matters in disoute with France.

A dispatch from Hongkong, received late last night, again remarks upon the unusual naval and military activity here. The dispatch says General Black und his staff have been inspecting the old frontier of British Kau-lung (Kowloon) and selecting points for the erection of defensive works. Field and siege guns are being mounted, and the menof-war lying off Hongkong ere embarking large quantities of ammunition. The firet has been signaled to send no mails !

loss of a child is perhaps the most disappointing, and the hardest to bear. During the heated spell in the summer in New York City 28 many as a thou-sand babies have sand babies have died in a week. Of course, in a crowded city, with its unsanitary districts, many of these deaths would have occurred

any way. The fact remains that this tremendous mortality was to a great extent due to the lack of inherent resisting power in the victims.

These babies when born had in their bodies the seeds of disease. The deadly heated term only shortened the period of their sufferings.

If a woman wishes her babies to be healthy and strong and able to resist the usual ailments of childhood, she must take proper care of herself in a womanly way during the period of gestation. A woman who suffers from weakness and disease of the organs distinctly feminine is unfitted for wifehood and motherhood. Dr. Pierce's Pavorite Prescription is a wonderful med-icine for ailing women. It acts directly on the delicate and important organs con-cerned. It makes them well and strong. It allays inflammation, heals ulceration, soothes pain, stops exhausting drains and gives rest and tone to the tortured nerves. Thousands of women have testified to its almost miraculous merits. Many of them have permitted their names, addresses, experiences and photographs to be repro-duced in Dr. Pierce's Common Sense Medical Adviser. This great book used to sell for \$1.50, now it is absolutely free. It tells all about the home-treatment of ordinary diseases. It contains 1008 pages; and over 300 illustrations. Several chapters are devoted to the diseases of women. For a pato cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y.; Cloth binding, 10 cents extra. "Favorite Prescription" can be obtained in any good medicine store.

#### DUN'S REVIEW.

Volume of Business Eight Per Cent Larger Than Last Year.

NEW YORK, Nov. 8.-R. G. Dun & Co.'s weekly review of trade says: Not even the election has disturbed business nor industries on the financial side this week. Although many are doubtless waiting for the votes before borrowing, the volume of business through clearing houses is \$.5 per cent larger than last year and 1.54 per cent larger than in 1892. While political doubts may count for much, they can only have prevented a growth of business which might have been much more than has been realized.

Failure returns for October are curiously puzzling because, while the small failures compare remarkably well with those of previous years and also the failures of \$100,000 or more in about two-thirds of the business classes, there were large failures in a few branches, not generally due to present business conditions, which made the aggregate \$14,000,000, but neither the Sawyer woolen failures nor others, excepting perhaps some in machinery and boots and shoes and leather, indicate difficulties beyond those of the particular concerns failing.

Wheat exports continue very large, amounting to 4,699.576 bushels from Atlantic ports, flour included, against ,287,636 last year, and 1 029,838 from Pacific ports against 1,592,252 last year, but the heavy exports have been much more than matched by western receipts of 9,490,092 bushels against 7,600,993 last year, and prices have not changed materially. Corn goes abroad largely, 3.011.035 bashels during the week against 1,812,943 last year, and prices are well

held. While domestic exports from New York for four weeks past have been 29 per cent larger than last year in value, for four weeks past imports have been also somewhat larger, but the difference indicates another enormous balance in favor of this country, not at present covered by specie movement or by exchange loans, which are growing very heavy. The country is so largely a creditor that as yet it does not know lts own power.

Failures for the week have been 194 in the United States against 276 last year, and 28 in Canada against 30 last year.

#### THE HORSE'S HOOFS.

If You Want Benithy Animals Keep Their Feet Hasped Off and Level as Possible.

Have you a good rasp for the feet of the colts? The old saying "no foot, no horse," is not only a true one, but should teach the farmer to take the best of care of the feet of all colls, says a writer in Australasian. The toe often gets too long unbalances the foot, and then come splints, spavins and every other disease to which the feet and legs are beit. See that the foot is kept rasped off and level. Do not use a knife if it can be helped. as the first blacksmith that shoes the colt will cut away enough to last a lifetime. In no part of the horse's anatomy has he suffered so many wrongs or endured so much unnecessary suffering as in his feet. If there is the least excuse every blacksmith will use a knile. Fry to let the colts grow up with such good strong feet that there will be no excuse for cutting them. Use the tasp on the underside of the toe and under no circumstances put the trap on the outside of the foot. The entire hoof, from the coronet to the sole is covered by a fine coating of carural varnish beginning at the upper margin or coronet and productly freeming thinner as it descends. Inder cover of this varnish the new horn is secreted and process outling arrains its maturity. The measture necessary by the animal section to the perfection of the horn is retained within it, and the influences of wet and dry are set at defiance. It is easy to see that this most important covering should not be interf-red with, and the foot should be kept level and in good shape from the

CHEAP STOCK SHELTER

Archway Inder or Through a Straw Sinck Is an Inexpensive Device for Protection.

To keep stock warm and dry in cold weather is no less a matter of economy than to keep them well fed. When properly sheltered they require less food. Shelter is less expensive than food. All farmers and stock raisers do not have stables for their cattle or anug sheds for their sheep. Sheds of poles with roofs of straw are exclusively used, and with profit. An archway shelter under or through a straw stack is an inexpensive and valuable device for protection. The skeleton frame of such a one is given in Figure

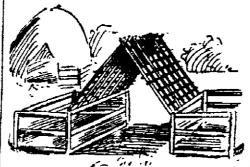

FIG. 1.

 It consists of two pens of the ordinary sort, for the bottom of small stacks. Place near enough together so that an archway of poles can be made between them. The lower ends of the poles are set a short distance in the ground, resting near the middle one, the top rail of the pen crossing its neighbor pole from the other per, and fastened to it with a bolt at the top, and also to the sides with wire. Over

FIG. 2

the structure nail some 1x3 strips or any old boards that are handy. Over this structure the straw stack is built, and when finished has the appearance as shown in Figure 2. In this way a snug shelter of considerable size can be made beneath the stack, under which cattle, sheep or hogs\_can take refuge in stormy weather. The poles can remain, if necessary, from year to year. If taken down, it can be reartanged in a short time, just before thrashing is done. Such an archway shelter will not be out of place in mary a well-kept barnyard.

#### PIG-PEN POINTERS.

The carcass of the hog on corn ration may contain a quarter less muscle or lean meat than that fed on mixed

Hogs living on cornmeal, water and salt did not seem to have their bones strengthened by feeding well water instead of rain water.

When kept upon corn hogs grow quite fat, but when yet small have the form and appearance of mature hogs. but are dwarfed in size.

Hogs fed on ground bone or hardwood ashes had the ash material of their bones about doubled in amount. ground bone giving better results than wood ashes.

If the new pigs seem to want to lie in their nexts and get very fat you must always guard against thumps flet in and drive them out of the nest al out twice a day and shut them out and they will run ardund and take plenty of exercise. The pigs will beth to est when about three weeks old,-Western Plewman.

the Bemocratic Italian Club of the

First Ward. EDITOR ARGUS:-This Vincent Maggio, who wants to belittle Italian citizens io this city, is what you Americans call a wise guy. He, it was, who called upon us and urged us not to call our club either Democratic or Republican, but that we be known as independents ready to "do business." We indignantly refused his plan and finding that he was doing all of his talking without being a citizen, we refused him membership. DOMINICO EUTINO.

Middletown's Port Jervis Club. From the Port Jervie Gasette.

Mrs. E. G. Medrick, of Middletown, entertained, at her home, Thursday, what is called the "Port Jervis Club" former Port Jervis people who are now residing in Middlecown. Mrs. Medrick was formerly Miss Mabel Swinton, of this village. Among those present from Port Jervis were Mrs. J. D. Brown and daughter, Miss Bertie; Mrs. Henry Sharp, Mrs. J. E. Everitt and Mrs. Eugene Coonrod. The ladies report a very enjoyable time.

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORMIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence or its remedy. It is far in advance of all other laxatives. as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial offects, please remember the name of the Company-
